

## Hardship Fee and Retiree Reduction for APA Division 29 Membership

The American Psychological Association Division of Psychotherapy Membership Committee does not want the membership fee to prohibit anyone from becoming a member of this APA division. Therefore, given adequate funding, fee reductions will be provided to those enduring times of financial hardship as well as retirees and will apply to Division 29 membership fees only. If you are in need of this assistance, please complete the following online application and upload a copy of your curriculum vitae prior to joining this division. Fee reduction forms will be accepted on a rolling basis and decided on a case-by-case basis.

### **FEE REDUCTION REQUEST FORM**

All information will be held in confidence. Fee reductions will be awarded on a first-come first-served, case-by case basis.
